

ROHIT SHARMA

Backend Engineer | Full-Stack Developer

 rohitshharma@gmail.com  +91 8178807004  New Delhi, India  linkedin.com/in/rohit-shharma

SUMMARY

Full-Stack Software Engineer with 4+ years of experience delivering scalable backend systems and web applications. Built platforms serving 2,00,000+ students and government portals for Haryana State. Strong expertise in Node.js, TypeScript, React.js, PostgreSQL, GraphQL, and AWS. Proven ability to own products end-to-end from architecture and API design to deployment and automation.

WORK EXPERIENCE

Software Developer, Medha

08/2022 – Present

SIS – Student Information System

- Built and maintained a production-grade SIS serving 200,000+ students using Strapi (Node.js), PostgreSQL & GraphQL, deployed on AWS; reduced data retrieval latency by ~30% via optimized queries and indexing.
- Implemented RBAC with JWT authentication and React.js dashboards for multi-institution access with secure data workflows.

DST – Haryana Government ITI Portal

- Solely architected and delivered a government ITI portal for Haryana State onboarding 15,000+ students with zero critical post launch incidents; built using Node.js, Express, Prisma, PostgreSQL, React.js, and AWS.
- Automated batch data processing pipelines, cutting manual administrative workload by ~40% and meeting all state compliance requirements.

Pehel – Student Data Platform

- Developed automated onboarding and reporting workflows, reducing reporting turnaround time by ~35% and improving operational efficiency.

Software Developer, Diagright

11/2021 – 08/2022

- Built a real-time GPS tracking dashboard for 90+ field agents using React.js and Google Maps API, improving operational coordination and response times by ~35%.
- Optimized RESTful APIs for user management and analytics, cutting average response time by 25% while handling 10,000+ daily requests through caching and query tuning.
- Contributed to Angular company website — implemented UI components and integrated backend APIs.

Software Engineering Fellow, Hyperverge Academy

04/2021 – 10/2021

Built 5+ full-stack MERN applications; gained hands-on expertise in REST API design, state management (React Context API), and database integration.

EDUCATION & CERTIFICATIONS

Master of Computer Applications (MCA), St. Andrews Institute of Technology & Management

06/2024 – 06/2026

Coursework: Advanced Database Systems, Cloud Computing, Software Architecture, Data Structures & Algorithms

India

TECHNICAL SKILLS

Languages

JavaScript (ES6+), TypeScript, Python, Java

Backend

Node.js, Express.js, Strapi, Prisma, REST APIs, GraphQL, WebSockets, RBAC, API Security, Redis Caching, JWT Authentication

Databases

PostgreSQL, MongoDB, MySQL, Redis, ORM (Prisma), MongoDB

Tools

Git, Postman, Agile/Scrum

Frontend

React.js, Redux, HTML5, AngularJs, SCSS, Tailwind CSS, Three.js, Context API, API Integration

Cloud & DevOps

AWS (EC2, S3, Lambda), CI/CD (GitHub Actions), Nginx, Linux

AI-Assisted Development

Cursor, GitHub Copilot, ChatGPT, Claude, Gemini

KEY PROJECTS

Government ITI Portal (Haryana DST), Tech: Node.js, Express, Prisma, PostgreSQL, React.js, AWS (EC2, S3)

- Implemented automated batch processing pipelines using Node.js worker threads for CSV imports, reducing manual workload by 60%
- Designed a role-based dashboard system with React.js for Four user types: Student, Trainer, institute heads and super Admin
